

THE INSTITUTE OF PAPER CHEMISTRY  
APPLETON, WISCONSIN

July 20, 1948

Dear Dr. Lederberg:

In conformity with your request of July 14, we are sending you under separate cover about 1 g. of lactulose. This material was made about ten years ago and was fairly pure then. If this amount is not enough and you decide to make more, I would be pleased if you would return an equal amount to me, since this represents half of my supply.

Although I have not made a careful search, I do not believe that o-nitrophenyl b-galactoside has been made. Dr. H. K. Richtmyer might know.

We will be glad to see you if you are in the vicinity. I may be in Madison myself later in the summer.

Cordially yours,

  
Ward Pigman  
Research Associate

Dr. Joshua Lederberg  
Assistant Professor of Genetics  
The University of Wisconsin  
College of Agriculture  
Madison 6, Wisconsin
